**NATIONAL ORGANIC PROGRAM REQUESTS COMMENTS REGARDING BULK ORGANIC PRODUCTS**

On February 3, 2012, the National Organic Program (NOP) published draft guidance with request for comments. The draft guidance clarifies the certification requirements for handlers of unpackaged organic bulk commodities and specifies that handlers of bulk organic products - including grain, soybeans, hay, milk and livestock - must be certified or be covered under another operation's organic certification.

This draft guidance responds to a recommendation by the National Organic Standards Board, a citizen advisory board to the NOP. The full document can be viewed at <http://www.ams.usda.gov/NOPDraftGuidance>. ♦

**USDA ISSUES FINAL RULE AMENDING DAIRY  
PRODUCT MANDATORY REPORTING  
PROGRAM**

On February 14, 2012, the U.S. Department of Agriculture issued a press release announcing a final rule amending the Dairy Product Mandatory Reporting Program as required by law.

The Mandatory Price Reporting Act of 2010 amends the Agricultural Marketing Act of 1946 to provide for the establishment of an electronic reporting system for manufacturers to report dairy product sales information for specific dairy products. The amendment further states that the Secretary shall publish the information obtained for the preceding week not later than 3:00 p.m. Eastern Time on Wednesday of each week.

"This market reporting program benefits dairy producers, processors, retailers, and consumers," said Robert Keeney, acting administrator of the Agricultural Marketing Service. "This change will provide dairy farmers with more timely information and streamline our process for reporting dairy product sales information."

This final rule includes regulatory changes for implementing the provisions of the Act. It transfers applicable data collection responsibilities from the National Agricultural Statistics Service to the Agricultural Marketing Service (AMS).

Manufacturers that process and market less than one million pounds of the specific dairy products per year are exempt from the reporting requirements. USDA uses the sales data reported to determine minimum class prices for milk marketed through the Federal Milk Marketing Order Program.

For additional information on the Dairy Product Mandatory Reporting Program, including the schedule of reports, please visit [www.ams.usda.gov/AMSV1.0/DairyProductMandatoryReporting](http://www.ams.usda.gov/AMSV1.0/DairyProductMandatoryReporting).

The final rule appeared in the February 15, 2012, *Federal Register*.

For additional information about the final rule, contact Joe Gaynor; Market Information Branch Chief, Dairy Programs, AMS, USDA, STOP-0232 Room 2977, 1400 Independence Ave., SW, Washington, DC 20250-0232; phone (202) 720-9351; or e-mail at [Joseph.Gaynor@ams.usda.gov](mailto:Joseph.Gaynor@ams.usda.gov).

**USDA GEARING UP TO CONDUCT 2012  
CENSUS OF AGRICULTURE**

Surveys are now arriving in mailboxes around the nation to help identify all active farms in the United States. The National Agricultural Classification Survey (NACS), which asks landowners whether or not they are farming and for basic farm information, is one of the most important early steps used to determine who should receive a 2012 Census of Agriculture report form. The Census of Agriculture, conducted every five years by the U.S. Department of Agriculture's National Agricultural Statistics Service (NASS), is a complete count of U.S. farms and ranches and the people who operate them.

NACS is required by law as part of the U.S. Census of Agriculture. By this same law, all information reported by individuals is kept confidential. NASS will mail the 2012 Census of Agriculture later this year and data will be collected into early 2013.

For more information about NACS, the Census of Agriculture, or to add your name to the Census mail list, visit [www.agcensus.usda.gov](http://www.agcensus.usda.gov). ◆

**USDA OFFERS MOBILE ACCESS AND MORE  
EFFICIENT ONLINE TOOLS**

On February 10, 2012, the Farm Services Agency announced a package of technology enhancements that include Web access for handheld and smartphone users, as well as a more efficient and timely option for receiving news and critical program information.
