## USDA ISSUES FINAL RULE APPLICABLE TO ALL FEDERAL ORDERS

On April 25, 2013, the USDA issued a final rule permanently adopting changes to the manufacturing cost allowances and the butterfat yield factor used in Class III and Class IV product-price formulas applicable to all Federal milk marketing orders. These amendments were adopted by an interim final rule issued on July 25, 2008, that became effective on October 1, 2008. More than the required number of producers approved the issuance of the orders as amended.

This final rule finalizes manufacturing (make) allowances for cheese, butter, nonfat dry milk (NFDM) and dry whey contained in the Class III and Class IV product price formulas that were implemented October 1, 2008, on an interim basis.

Specifically, this decision finalizes the following make allowances:

- cheese (\$0.2003 per pound);
- butter (\$0.1715 per pound);
- nonfat dry milk (\$0.1678 per pound); and
- dry whey (\$0.1991 per pound).

In addition, the butterfat yield factor in the butterfat price formula continues to be 1.211.

Accordingly, this final rule adopts proposed amendments detailed in the final decision (78 FR 9248).

This administrative action is governed by the provisions of sections 556 and 557 of title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12866.

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have a retroactive effect.

## USDA ISSUES TERMINATION OF PROCEEDING APPLICABLE TO ALL FEDERAL ORDERS

On April 29, 2013, the USDA issued a termination of proceeding that amended manufacturing allowances of the Class III and Class IV price formulas applicable to all Federal milk marketing orders on an interim basis. Subsequent formal rulemaking proceedings have superseded these amendments and therefore, action on this proceeding is terminated.

The make allowances approved by producers became effective February 1, 2007 (71 FR 78333), but were subsequently amended through a separate rulemaking proceeding (72 FR 6179).

A request was received from the proponents of the 2007 amendments requesting termination of this proceeding. Accordingly, it is determined that this proceeding should be terminated.

For further information, contact Erin C. Taylor, Marketing Specialist, USDA/AMS/Dairy Programs, Order Formulation and Enforcement, Stop 0231-Room 2971-S, 1400 Independence Avenue SW., Washington, DC 20250-0231, (202) 720-7311, or via email at [erin.taylor@ams.usda.gov](mailto:erin.taylor@ams.usda.gov). 🐄

## USDA ANNOUNCES FINAL CALL FOR 2012 CENSUS OF AGRICULTURE

The USDA issued a news release on May 6, 2013, to remind farmers and ranchers that the window to respond to the 2012 Census of Agriculture closes on May 31, 2013.

According to the news release, the 2012 Census will provide a complete picture of agriculture that will be used to shape the future of agriculture, rural America, and the lives of those USDA serves for years to come.

Census forms can be returned by mail or online by visiting a secure website, [www.agcensus.usda.gov](http://www.agcensus.usda.gov). Federal law requires a response from everyone who receives the Census form and requires the National Agricultural Statistics Service to keep all individual information confidential.

## AGRICULTURE SECRETARY VILSACK UNVEILS VISION FOR U.S. ORGANIC AGRICULTURE

During remarks to the Organic Trade Association on May 14, 2013, USDA Secretary Tom Vilsack discussed his vision for U.S. organic agriculture and USDA efforts to ensure its continued success. Vilsack announced a number of changes and new initiatives to support the continued growth of organic agriculture, including that the USDA's Risk Management Agency's federal crop insurance program will increase coverage options for organic producers this year and provide even more options in 2014.

Vilsack also said USDA will be providing new guidance and direction on organic production to all USDA agencies in support of organic agriculture and markets.

## USDA FUNDS MAJOR RESEARCH INITIATIVES TO STUDY THE EFFECTS OF WEATHER AND CLIMATIC VARIABILITY ON BEEF AND DAIRY CATTLE

In early May 2013, the USDA awarded \$19.5 million to support research, education and Extension activities associated with climate solutions in agriculture aimed at the impacts of climate variability and change on dairy and beef cattle. USDA remains focused on carrying out its mission, despite a time of significant budget uncertainty.

The University of Wisconsin, Madison, received \$9.9 million over five years to study the environmental impact of various dairy production systems and develop best management practices for producers to implement at the farm level. The project's ultimate goal is to increase the resiliency of dairy production systems while reducing greenhouse gas emissions. 🐾
