USDA Updates

USDA SEEKS NOMINATIONS FOR THE NATIONAL ORGANIC STANDARDS BOARD

The U.S. Department of Agriculture (USDA) is seeking nominations to fill a vacancy on the National Organic Standards Board (NOSB) for an environmentalist or resource conservationist. The board positions are specifically designated to represent various sectors of the organic community, including those who have expertise in areas of environmental protection and resource conservation, own or operate an organic production or handling operation, or own or operate a retail establishment with significant trade in organic products.

The NOSB, established under the Organic Foods Production Act and operating in accordance with the Federal Advisory Committee Act, is responsible for reviewing materials and/or recommending changes to the National List of Allowed and Prohibited Substances, and advising the Secretary of Agriculture on other aspects of the USDA organic regulations.

The environmentalist or resource conservationist selected to fill the current vacancy (created by a recent resignation) will serve from January 24, 2016 to January 23, 2020, the remainder of the former board member's term. On April 8, 2015, USDA invited nominations for an additional five vacancies on the NOSB. All six board appointments will serve terms beginning on January 24, 2016, and will be announced in the near future.

Written nominations, with cover letters, resumes, and a required form (available on the USDA website), must be postmarked on or before October 29, 2015. All applicable information should be sent to Michelle Arsenault, National Organic Program, USDA-AMS-NOP, 1400 Independence Avenue, SW., Room 2648, Ag Stop 0268, Washington, D.C. 20250.

To learn more about the NOSB and the nomination process, visit the AMS website. For more information, contact Michelle Arsenault at (202) 997-0115 or via email at Michelle.Arsenault@ams.usda.gov. 🐾

HEARING ON A PROPOSED FEDERAL MILK MARKETING ORDER FOR CALIFORNIA

A public hearing began on September 22, 2015, to consider and take evidence on a proposal that would establish a Federal milk marketing order to regulate the handling of milk in California.

The hearing is being held at the Clovis Veterans Memorial District Building, with occasional sessions being held at the Piccadilly Inn Airport Hotel instead.

A live audio webcast is available at www.ams.usda.gov/live.

For all hearing information, including logistics, proposals, transcripts and exhibits, please visit the California Hearing Page, www.ams.usda.gov/rules-regulations/moa/dairy/ca. For questions regarding the hearing, please email californiainfo@ams.usda.gov. 🐾

DAIRY MARKET NEWS PROPOSAL

Dairy Market News (DMN) is proposing updating the Dairy Market News Working Guidelines. This proposal is the result of an industry comment period. The updates would allow DMN market reports to additionally include information and sales prices reported by individuals and firms functioning as marketing agents selling on the behalf of dairy product manufacturers. The Working Guidelines updates are intended to capture more information on pricing and market conditions and reflect the evolution of the marketing of dairy products. Currently, market pricing information is collected for first sale, f.o.b. producers' plants or warehouses. The changes would be effective starting with Report 1, January 2016.

Comment by October 30, 2015 to DMN@ams.usda.gov. 🐾

October is National Cooperative Month

NATION'S AG CO-OPS SET RECORDS FOR INCOME AND REVENUE

On October 7, 2015, Agriculture Secretary Tom Vilsack announced that the nation's farmer, rancher and fishery cooperatives posted record income and revenue in 2014.

As part of USDA's observance of October as National Cooperative Month, Vilsack previewed a USDA report to be released later this month that shows cooperatives earned \$6.5 billion in net income and generated \$246.7 billion in total revenue last year.

Net income increased 16.5 percent while revenue rose 0.4 percent from 2013. Co-ops set records for income and revenue in 2014 for the fourth year in a row.

"The nation's co-ops are essential to the U.S. economy and to rural America," Vilsack said. "The income they generate is reinvested or returned to members who spend it in their local communities. USDA is proud to continue its support of the cooperative movement."

Ag co-op employment increased 0.4 percent to 191,000 people in 2014. The number of full-time co-op employees dipped slightly, 0.4 percent, while the number of part-time employees increased by 2 percent.

The total number of ag cooperatives declined from 2,186 in 2013 to 2,106 last year, a drop of nearly 4 percent. Despite the decline, co-op memberships grew by 1 percent, to just under 2 million. Many farmers and ranchers are members of more than one cooperative. In addition to providing supplies and marketing services to farmers and ranchers, the nation's co-ops provide telecommunications, energy, financial and other important services.

Vilsack recently signed a Cooperative Month proclamation that salutes the nation's cooperative business sector, which includes about 30,000 co-ops.

Also, Secretary Vilsack previewed findings from USDA's annual rankings of the nation's Top 100 Ag Co-ops. Among other things, the rankings show that 15 of the Top 100 agricultural co-ops are headquartered in Iowa, the most of any state. Minnesota is home to the second most Top 100 agricultural co-ops, with 12 headquartered there. Nebraska is next with nine, followed by Illinois with six and California and Wisconsin, both with five. Indiana, Missouri and Ohio each have four Top 100 co-ops, while Kansas is home to three.

For co-op revenue, Minnesota ranks first, with \$67.6 billion. Missouri is second at \$21.4 billion, and Illinois is third at \$14.1 billion.

According to the rankings, CHS Inc., a fuel, supply, grain and food cooperative based in Inver Grove Heights, Minn., is the nation's largest cooperative. It posted \$43 billion in revenue in 2014. Rounding out the top three ag co-ops are Kansas City-based Dairy Farmers of America, with \$18 billion in total revenue, and Land O'Lakes, headquartered in, St. Paul, Minn., with \$15 billion in revenue.

More information about National Cooperative Month is available on USDA's Rural Development webpage, available at www.rd.usda.gov.
