

Price Estimates

Pacific Northwest and Arizona

Milk Market Areas

February 2010

Estimated Prices : The most current, publicly available commodity, price and other data are used to estimate the following prices. These estimates are based on information which is usually updated on Friday or when significant data becomes available. The data on this page are for information purposes only. Prices reported on this page: 1) do not constitute or establish minimum prices for milk pooled under any Federal milk market order, and 2) are subject to change without notice. Use this information at your own discretion. This page will be updated to the next applicable month on or after the second Friday of each month.
