May 14, 2008

NOTE:

Due to handler(s) being excluded from the April 2008 calculation of the producer price differential for the Pacific Northwest Order (FO 124), details of the calculation of the producer price differential are restricted.

The PPD is calculated according to §1124.61. Section 1124.61 states that the report of any handler who has not made payments required pursuant to §1124.71 for the preceding month shall not be included in the computation of the producer price differential, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations.

All other normal monthly statistics reported by the Market Administrator's Office represent all handlers.
